Fall is in the Air!

Crisp autumn breezes, the trees with their stunning display of reds, oranges and yellows against a brilliant blue sky, what an inspiration to be back out in nature: water and take care of those newly planted trees and shrubs (p. 28-33); defy the frost for a longer fall vegetable harvest (p. 10-11, 60); fertilize your lawn now to get a jump start on spring (p. 34-35); and rake and collect those leaves to create your own rich compost (p. 50-53).

Browse our catalog and be inspired for your fall projects. Plus, we'll give you a free #1234 hand pruners with your order of $99. Introduced earlier in the year, its ergonomic design makes it ideal for when you prune your plants back this fall and winter.

Happy gardening, and enjoy the Fall cool!

47 out of 49 Customer Reviews Love It!

★★★★★ *"Nut Wizard saves time, energy & your back! I have a Liquidamber tree that produces hundreds of golf ball size seed balls. I've used everything from a rake to a shop vac to pick them up, but since they fall continuously from October to January, the Nut Wizard is just a marvelous invention that's handy to pick up these messy pods. I used the small Nut Wizard to pick up these seed pods, but the larger one is great for apples and oranges. If you buy one, you will certainly wonder why you didn't buy one sooner. It's well made and I've had the small one for over ten years and it's just like new...I love tools that make my life easier."*

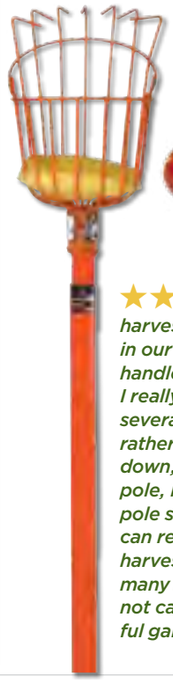
Put Any Fruit at Arm's Reach

It's like an extension of your hand. This fruit picker makes it easy to reach fruit. 12 ft. telescoping aluminum pole with sturdy metal picking basket. Poly–coated picking prongs prevent fruit damage. Weighs less than 2.5 lb. Ship wt 2.5 lb.

245FH Fruit Harvester **$61.49**



★★★★★ *"Used it this fall to harvest apples from upper branches in our orchard. The telescoping pole/handle operates smoothly and easily. I really like the way I can gather several apples in the basket and rather than bringing the basket down, hand over hand along the pole, I just relax my hands and let the pole slide through my hands until I can reach the basket. Another plus: I harvested all our unreachable apples, many bushels, and the product did not cause fatigue." – Frank. Successful gardener for over 60 years, WY*

Why bag up leaves and branches for the trash man and then go buy bags of mulch and soil amendments?

Instead, turn your own yard waste into valuable mulch!

For leaves AND branches!
Patented top hopper design for convenient loading of materials
3 cycles for shredding, mulching & chipping
2 hardened steel blades handle branches up to 1-3/8in diameter.

1. Convenient loading

1-2-3: Shreds Branches for Quick Composting

Heavy duty leaf and branch chipper turns yard waste into valuable mulch with its powerful 2.5 horsepower, 14-amp electric chipper/shredder. You'll quickly turn small branches (up to 1-3/8in diameter) and leaves into valuable mulch for your garden. Creates fine particles that are ideal for quick composting. Compact design for easy storage. All steel construction except intake hopper and exhaust chute; has the largest motor in its class. **No overweight shipping charge!**

ES1600 Electric Chipper/Shredder; Ship wt 75 lb. **$319.95**

An Edge for You

It just doesn't make sense. So many of your neighbors will work hard to bag up their leaves and dead branches and leave them at the curb for the garbage truck to carry away. And then next spring, they'll have a load of mulch dumped on their driveway, or go to the local store and buy big bags of soil amendments for their gardens.

Be smarter! Either shredder is a smart investment that pays back year after year. Reclaim those nutrients from dead branches and leaves. It's so much fun you might even "steal" your neighbors' yard waste.

Wow, it's Almost Magic! Convert 11 Bags of Leaves Down to 1 Bag—Then Mulch or Compost it!

With this portable leaf mulcher, you can reduce 11 bags of leaves down to 1 single bag of soil-enriching mulch for composting or use as valuable organic nutrients for your garden. It's simple and fast! Lightweight, 17-lb. shredder with built-in carrying handles moves easily around your yard. Powered by a tough, quiet, 8-amp peak, electric motor with a cutting action similar to a string trimmer. Chops leaves (wet or dry), pine needles, even grass clippings into a valuable soil amendment. For replacement line, purchase .080 line. Ship wt 21.5 lb.

LES Leaf Eater Plus Shredder **$219.99**

Lithium battery powered tools run 50% longer than NiCad: *plenty of time to finish the job!*

Lithium battery powered tools offer the same cordless convenience of our NiCad battery–operated tools plus much more!

- Quick 1-hour charge provides you with more charge/discharge cycles in a shorter time frame.
- 50% longer run time over NiCad batteries.
- Fade free–performance! Lithium batteries discharge consistently without power fade. You'll have the same power when you start working until the battery fully discharges, unlike NiCad batteries whose charge fades through use.
- Lighter weight provides greater comfort over longer periods of use.

A. A Handy Chain Saw for Around–the–Yard Cleanup

You won't find a better cordless chain saw for quick clean ups. Engineered to be easy to use with an automatic oiler system for the chain and motor, plus a quick view oil level window so you can monitor exactly how much oil you have. 18 Volt, 1.5 AH lithium battery included, 30 minute average runtime. Ship wt 10 lb.

EWLCS Earthwise Lithium Chain Saw **$169.99**

★★★★★ *"I bought this saw last fall and have used it to cut some good material (up to the full length of the blade). I've been amazed with both the torque of the motor and the performance of the battery. As claimed in the ads, the battery maintains very constant output until it reaches the point of exhaustion and then recharges quickly. The oiler has also worked well. I had previously purchased a cordless saw with a NiCd and was was not happy with its performance. I bought the new saw because of the Li battery and the hope it would be able to meet my needs. It has exceeded my expectations." – David W, NC*

B. Safely Make Those High Cuts, No Ladder Required

"I used my cold frames in early spring for starting Brussels sprouts, tomatoes and broccoli. A friend asked me to start some flowers for her too. Wonderful jump start to the season. I used them two ways—first I planted seeds in pots in the cold frames and the second I planted seeds directly into the ground. Taking the cold frames apart and storing them are very easy. I just ordered two more to start my fall planting!" – Gwen, NC

"It was easy to assemble and got my spring crops off to an early start. It was great because the critters didn't uproot my seedlings either. As it got warmer, I removed the doors. Now that fall is upon us, I started another crop of lettuce and radishes and look forward to harvesting well into November. Nice quality...loved it." – Kay, IL

"Everything a Cart Should Be. Easy to assemble; sturdy; works great for my 82 year old Mother In Law." – Tim, OH

"Love my little orange scooter. It is sturdy and fairly easy to scoot around on between my raised beds & rows of corn, etc. It is just the right size & really saves my back whether I am planting or weeding. Also the little basket at the back & shelf under the seat are good for putting tools, plants, etc." – Kathy, AZ

"I bought this item last summer. I have knee problems preventing me from kneeling down. I was able to sit and do all my gardening with ease. I rolled along my flower beds to plant and weed. I also like the basket on the back and the shelf underneath to keep my tools close at hand. Looking forward to using it again this next summer. I recommended to a friend who also bought it and loves it." – Kathy, beginning gardener at 59, WY

"I found this Garden Scooter to be just what I needed! I have had problems with my back and knees for years, and thought things like gardening and motorcycle maintenance would be too much for me to do. This scooter is a blessing! I am able to sit down close enough to plant and weed my new raised bed garden, as well as wash and wax my motorcycle from top to bottom. The wheels on this scooter make both chores far easier on me than I thought possible... The under-seat tray as well as the wire basket, allow me to keep all of the necessary tools that I may need together in one place." – John S., CT

Experienced gardeners appreciate the power to scoot through garden rows and raised beds!

A unique 30" long handle at a comfortable height for pulling behind you.
The contoured tractor seat swivels 360°, and raises and lowers to the right height for you.
We maximized the storage capacity with both a tray beneath and a basket on the back for handy access to tools and supplies.
A lower hand grip for steering while seated.
Large pneumatic tires roll smoothly, even over tilled or mulched soil.

Mild serrations

Classic Knife features:

- Matte finish stainless steel
- Shorter, milder serrations
- Larger grip guard
- Customer favorite for years
- **Lifetime Warranty**

★★★★★ *"I have purchased many of these knives! I have 3 myself, and have given many as gifts to family, friends, and speakers at my Master Gardener programs. I use the knife for many purposes: basic digging, dividing perennials, planting seedlings, and even hacking through poison ivy in the woods. I love the orange handle, I can always find it after laying it down somewhere in the garden. I own 3 and have them in 3 different sites in the garden. That way I always have one close at hand. This tool replaced a trowel, hoe, garden row marker, bulb planter, and hand rake. Now I only need my soil knife!"*

Gardeners Share

"I enrolled in a Master Gardener course and noticed that a lot of the members that had been in the Master Gardener group for a while had this tool. They all swore that it was the best tool they ever had. I purchased one for myself and this tool lives up to their praise. My husband used it once and then it disappeared into his tool cache, so I had to buy another one for me. We have very heavy clay soil and this tool doesn't bend or break when digging into the hard soil like other trowels and digging tools. It is also great for cutting through small roots."
– D. Miller, IN

"I was skeptical when I read the reviews at first myself so I thought I would give it a chance. Best gardening tool I have ever bought and one of the cheapest in price but not quality. Recommend this product to anyone who spends any time in their yard. Try it, you will love it also." – Brian A., IL

"I'm on my third one — they are absolutely amazing. If only I didn't keep misplacing them. Can't garden without it. Am purchasing several now for gifts for gardening friends."

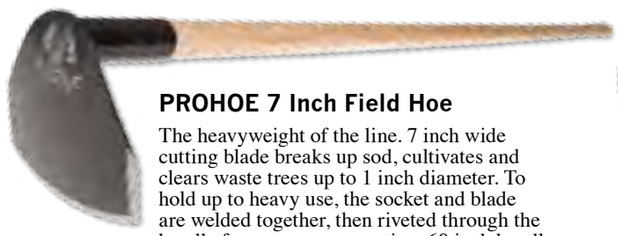
The grinding, welding, and sharpening are all done professionally by hand to ensure each piece is crafted with the highest quality.

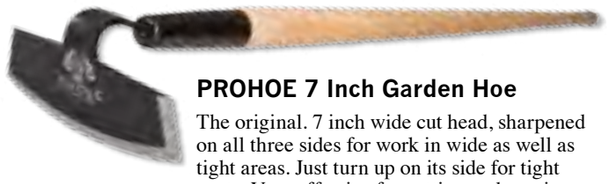
NEW!



PROHOE 7 Inch Field Hoe
The heavyweight of the line. 7 inch wide cutting blade breaks up sod, cultivates and clears waste trees up to 1 inch diameter. To hold up to heavy use, the socket and blade are welded together, then riveted through the handle for a strong connection. 60 inch handle length. Ship wt 4.1 lb.

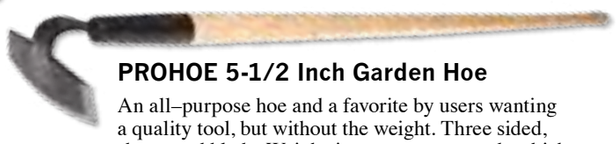
70F 7in Field Hoe **$32.99**

★★★★★ *"I love this hoe. It's the best I've ever owned. I have a small organic, minimal till farm, so I do a lot of hand hoeing. It's sharp - cuts the thistles, and other heavy weeds easily, but I can still hoe the smaller, delicate weeds coming up around my transplants. It's so sturdy and heavy that I can let the hoe do the work - not my back." – J. McCain, OR*



PROHOE 7 Inch Garden Hoe
The original. 7 inch wide cut head, sharpened on all three sides for work in wide as well as tight areas. Just turn up on its side for tight spots. Very effective for cutting and moving dirt. Hefty 1-3/8 inch diameter, 60 inch handle. Ship wt 3.3 lb.

70G 7in Garden Hoe **$31.99**



PROHOE 5-1/2 Inch Garden Hoe
An all–purpose hoe and a favorite by users wanting a quality tool, but without the weight. Three sided, sharpened blade. Weighs just over two pounds which makes it light and easy to handle. 1-1/4 inch diameter, 60 inch handle. Ship wt 2.3 lb.

575G 5-1/2in Garden Hoe **$31.99**

PROHOE 6 Inch Scuffle Hoe
Three sided blade, very sharp for smooth cutting in both directions. The scuffle hoe's push/pull motion allows weeding under branching plants where common hoes can't effectively reach. Ship wt 2.5 lb.

Plant your bulbs this fall

Know whether there is too little or too much fertilizer, or just the right amount!

Find the perfect spot for shade, part shade and sun plantings.

Determine moisture level.

See pH levels from 0-9.

Simply flip the lever to choose which reading you want to take.

Three 3-3/8 inch probes create an electrical current that allows the meter to take an accurate reading of soil conditions.

Before You Plant, Make Sure that Spot gets Enough Sun, and Has the Right pH!

Be a know–it–all! Handy tool measures accurate pH, moisture, fertilizer and light conditions every time. Shows pH levels from 0-9. Provides the percentage of moisture in your soil. Lets you know when fertilizer levels are too high or too low. Identifies light levels to help you find the perfect spot for shade, part shade, and sun plantings. Easily switches functions. Simply insert into soil and flip the lever to the reading you want to take.

How the meter works: The pH meter works by using different metals in the probes. When they are inserted in damp soil, the different metals react with each other to create an electrical current. The meter measures the electric current, and that's how it reads the soil pH. Like many metals exposed to dampness, over time, the metal on the right probe has a tendency to oxidize, which puts a coating on the probe, and prevents it from correctly working. That's why a cleaning pad is included. It is specifically designed to clean this probe. **Tip:** Make sure you clean the probe, moisten the soil and wet the probes before using each time. Ship wt .5 lb.

FW3000 4-way Meter **$35.99**

★★★★★ *"I LOVE this 4-way soil analyzer. I use it to check moisture, fertilizer and PH... I've had it for a few months and it's a real handy all-in-one tool. Better one little tool than 3 or 4 different tools. Thanks for making this space saver, money saver, trouble saver available for a reasonable price. Just one soil test can cost $10 so do the math."*
– M Reichardt, VA

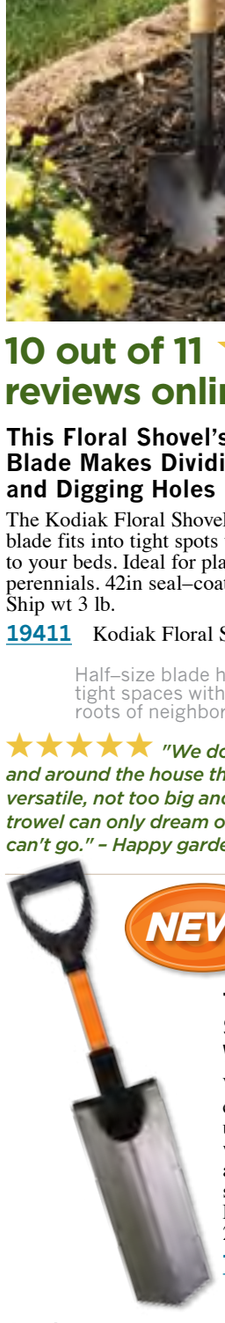
Half–size blade helps you navigate tight spaces without disturbing the roots of neighboring plants.

★★★★★ *"We do a lot of gardening and landscaping and around the house this is the shovel we always grab. It's versatile, not too big and not too small. It does work that a trowel can only dream of and fits in places a typical shovel can't go." – Happy gardener, CT*



The Shortie Transplant Spade Picks Up Right Where the Trowel Leaves Off!

When the hand trowel just isn't large enough or too difficult to manage, step up to the Shortie Transplanter. Great for working at ground level to plant annuals and perennials, divide plants, and strip sod. Slightly tapered 4 1/2" spade. Fiberglass handle with poly D–Grip. 26 inches overall. Ship wt 2.5 lb.

TBH Shortie Transplant Spade **$34.99**

★★★★★ *"It is a very sturdy shovel with an edge to break through hard soil. The edge is very sharp and will take on old roots left by trees that have been removed." – Lynda M., OR*

Jagged, sharp, high–carbon steel blade cuts through it all.

Clever—Use Your Drill for Tilling, Digging and Weeding in Tight Spaces

The Turbo Tiller Plus TT1000 combines a 6 tine tilling head and "Shovel Vane Tumbler" to accomplish this and more. Simply attach to any drill motor. For best results we recommend using an 18-volt, 2-speed drill with 300 inch lbs. of torque minimum. A drill with a side handle will give you optimal performance and control. When the tiller is used without the shovel vane it is great for tilling, trenching, deep boring, breaking up hard soil, mixing in amendments and weed removal. With the shovel vane tumbler attached you can pull out a perfect soil plug for easy planting of bulbs and bedding plants.
Ship wt 4.5 lb.

TT1000 **$59.99**

"I have to admit I was skeptical about a hat made partly of paper; could it possibly hold up? Well, I have sweat through it, left it out in the rain, bunched it up and stored it over the winter and crammed it into my gardening bucket and it STILL looks, and more importantly, WORKS great. The leather cord is sturdy and holds it in place perfectly. I heartily recommend this hat." – Jo, VA

"45 & look 35 because I ALWAYS wear a hat in the sun! I like the color first of all... I wear it on the beach & at the lake to keep the sun off my face. It's been through a couple of summers and still looks new... The fit is great and the brim is sturdy but not too stiff. I can even put it in my suitcase and it looks fine when I reach my destination." – 45, TX

A.M. Leonard ArborRain™ Hydration System– Slow, Even Watering Means Maximum Usage by the Tree, For Better Health

Great way to protect your investment with young trees and shrubs. High capacity 20 or 32 gallon models release water over a 5 to 8 hour timeframe allowing water to permeate deep into the soil, hydrating both root ball and surrounding soil for complete coverage. ArborRain™ is designed with a low profile to blend in better with the natural surroundings and the dark brown color dramatically reduces its visibility when used along with dark hardwood mulches. **Fits up to 6-inch diameter trees**; multiple hydrators can be placed around the drip line of large established trees to alleviate stress from drought or new construction. **20gal.** Ship wt 2 lb. **32gal.** Ship wt 2.5lb.

AR20	20-gallon ArborRain™ System	**$16.99**
AR32	32-gallon ArborRain™ System	**$19.99**

★★★★★ *"Hot summers with no rain really stress plant life here. Bought the AR20 specifically to care for a Japanese maple that suffers every year during hot weather. The AR20 allowed water to get directly into the root ball without excessive evaporation, and with 3 fill ups a week our maple looks better than it ever has." – A.J., AR*

★★★★★ *"This watering tube worked great for me in the ongoing Texas drought. It does a great job of soaking down the root zone slowly. I have had no problems at all with the AR20 product. I was concerned that wildlife such as raccoons, etc. might be a problem in this extreme drought, but they did not bother the tubes at all." – Kirk, TX*

★★★★★ *"In our California native plant garden, we have a Redwood tree that in the past got little soaking water. With the ArborRain, it now gets adequate water at a slow rate." – Rich, Walnut Creek, CA*

Two emitters distribute water slowly and evenly up to 8 hours providing a deep hydration of trees and shrubs.

Fill quickly and easily through the large diameter fill port. Screw cap keeps water in and contaminants out.

Luscious Lawn 9-0-0 Natural Corn Gluten Meal

Corn gluten meal is a slow–releasing, nitrogen rich fertilizer with amino acids and minerals for greener turf. Excellent on flower beds and vegetable gardens. Apply this granulated formula Spring and Fall at 20 lb per 1,000 sq ft. Not for pets or people who have corn allergies. Otherwise, spread on your lawn and play right away! Ship wt 40 lb.

CG40 40 lb Bag **$35.49**

An Edge for You

If you only fertilize your lawn once a year, fall is the most important time to do it! Grass can become dormant in the hot, dry weather of summer. Once things begin to cool down, give your lawn a little extra help as it recovers from the summer stress. Fertilizing early in the fall with a fertilizer high in nitrogen will get those grass blades growing green and healthy again. It strengthens the roots and helps your grass store food for the winter.

In more northern climates, fertilizer can be applied to the lawn again in late fall to better help spring growth. Please note that fall lawn fertilizing applies only to cool season grasses. Fertilizing warm season grasses can interfere with the hardening off process that they undergo during the fall.

Rich Iron + Nitrogen = GREEN!

Andersons 25-0-3 with 2% Iron Turf Fertilizer

Nitrogen and iron make a powerful blend for that lawn greenup. 50% of the total nitrogen is derived from NutriSphere–N, a proprietary nitrogen management tool that has been proven to prolong desirable turf color. Also contains 2% iron for further turf color enhancement. **1 bag covers 10,000 sq ft.** Ship wt 50 lb.

Simple spray to reduce the thatch!

Microbial Thatch Reducer & Lawn Treatment

Although some thatch in your lawn is beneficial, too much can cause fungal diseases to grow and spread. All–natural Thatch Control is a highly concentrated patented microbe that breaks down excessive lignin and cellulose found in thatch and converts it into beneficial nutrients for the lawn. It germinates and grows on harmful thatch while drawing upon it as a food source. Lawns treated with Thatch Control will be hardier, lusher, more vigorous and better protected from harmful turf diseases. **2 oz packet (treats 5,000 sq ft of lawn).** Ship wt .6 lb.

Protect Your Furniture with Elegant Form and Superior Function

You've made an investment in outdoor living. Now you need to block the damaging elements that shorten the life of your furniture. These Veranda covers are attractive and practical: far better than lesser–quality covers sold elsewhere. Constructed from a substantial wind–and–weather tough fabric and treated to repel water and resist mildew. Air vents reduce condensation and prevent "ballooning" in the wind. Stitched with care in an attractive Pebble color, with a bark–brown splash skirt. Manufacturer's 3-year limited warranty. A fashionable and practical protection from sun, rain, snow, mildew, and dirt.

Work Sharp Can Sharpen Whatever You Need Indoors or Out, Even Serrated Knives!

If It's Got an Edge... the Work Sharp Will Sharpen It!

Knife makers use abrasive belts to get a razor sharp edge on their blades — now you can too! Innovative belt design flexes to any blade shape creating a strong, razor sharp, edge. Comes complete with everything you need to sharpen and hone all your cutting edges. Great for sharpening all common blades like knives, scissors, axes and hatchets, mower blades, garden shears, and shovels. PLUS, this sharpener is able to sharpen those hard to sharpen blades such as curved knives, serrated knives, gut hooks, etc. No more second–guessing! Includes 2 bevel guides ranging from 20° to 65°. Guides ensure consistent and accurate blade sharpening every time. Includes instructional DVD and user's guide! Plus 40° kitchen knife guide and 50° outdoor knife guide for serrated knives and sharpening scissors. **Made in the USA.**

Use for pruners, mower blades, shovels, knives, scissors and more!

An Edge for You

Work Sharp delivers a superior edge! Most knife sharpeners create a flat 2-dimensional bevel on a blade that can be sharp. But over time, the edge will get thicker when resharpening which increases friction and makes it harder with each time you sharpen. But Work Sharp's flexible belts create a superior convex (closer to using 3 dimensions) grind on the blade. A convex edge is hence stronger, cuts better and stays sharp longer.

Theirs: Flat Beveled Edge

Ours: Superior Convex Edge

Drastically Reduce Weeding

Keeps your landscaping looking sharper longer. Effectively blocks weeds and seed germination, reducing the need for chemicals and weeding, saving you time and money. Tightly woven polypropylene fabric is 98% opaque to light and permeable to air, water and other valuable nutrients that promote healthy plant growth. Will not rot, mildew or become brittle. Easy to install.

★★★★★ *"Ease of install — 625S5 fabric. Used to landscape around garden shed. Covered with 3/4 inch smooth stone so will hold up under foot traffic. Found it easy to cut and shape curves and holes for items within coverage. Also used for lining 4x4x4 compost bins." – Gentleman farmer, CT*

★★★★★ *"Far superior to any other fabric that I have used. In spite of violent winds, it did not lift or tear. It blocked all weeds and allowed water to pass through quickly!" – NM*

Use for weed mat above or to finish the look for the rubber mulch mats at right.

Heavy Duty Steel Anchor Pins: These are NOT Those Flimsy Pins You'll Find Elsewhere!

Effectively secure landscape fabrics and ground cover. U–shaped design with angled cut ends allows for fast and easy installation. 6in x 1in.

2420	Pack of 24; Ship wt .5 lb.	$1.86
616AP	Pack of 500; Ship wt 20 lb.	$32.99

★★★★★ *"I bought [616AP] to pin weed blocking cloth under a gravel walk. The weed cloth I use is thick, nursery quality, not big box store stuff. Most pins are too flimsy to use, and they're also ridiculously expensive. These are solid — they go right through overlapping weed cloth and don't bend under my hammer's pressure." – Fog, MD*

*Note: Anodized edging is extremely durable, keeps its color even longer, and is even easier to maintain.

Permaloc Edging: Give Your Lawn Sharp, Clean Lines and Make it Easier to Mow!

PBR8	6 Bronze Duraflex Sections; Ship wt 3 lb.	$23.49 each
PGR8	6 Green Duraflex Sections; Ship wt 3 lb.	$23.49 each

★★★★★ *"This edging, it never rusts, never heaves, maintains its color. Mine has been down for a year with no problems. It does take a little more effort to install but it is worth it." – Terry, IL*

★★★★★ *"Easy to install...I found the Permaloc edging exactly what I wanted. It clipped together easily, and, after digging a small trench to define the area I wanted to bound, it seated nicely with the enclosed stakes. I chose the black, and I am definitely happy with this product." – Tom T., PA*

★★★★★ *"Easy to bend and resists frost heave." – Jeff H., OH*

100% Recycled Rubber Mulch Mat Looks So Real!

Achieve that "manicured" look around your trees without time-consuming edging, spraying, weeding, raking and remulching. Perm-A-Mulch is mixed with a special bark colored binder which is molded to form a tough, flexible mat that looks just like mulch! Perm-A-Mulch allows air, water and nutrients to pass through, yet effectively blocks weeds and grass. Properly installed (underlying sod removed), it is sturdy enough to be hit by a string trimmer, or run over by a lawn mower without damage or shifting. The 3/4in thick mat comes in five sizes to fit any application. **Will last over 10 years!**

PM20	20in diameter Perm-A-Mulch; Ship wt 4.5 lb.	$15.99
PM24	24in diameter Perm-A-Mulch; Ship wt 6.5 lb.	$21.99

PM48	48in diameter Perm-A-Mulch; Ship wt 20 lb.	$99.99
PM60	60in diameter Perm-A-Mulch; Ship wt 36 lb.	$144.99

★★★★★ *"Very pleased with the Perm-A-Mulch rings... well worth the cost for all the time it saves weeding and watering plus it looks nice around the trees." – A., ID*

★★★★★ *"Really love these things! I grow fruit trees in large planters, and these Perm-A-Mulch rings really make my life SO much easier. They are the perfect size for large pots, and really prevent those annoying weeds from growing around the bottoms. They also give the pot a neat tidy appearance." – W Nichols, CA*

Presents a finished look; ideal for young trees where you don't want to use a powered trimmer.

★★★★★ *"These mulching rings are great. I have some of these rings that have been in constant use over 10 years. I have never experienced a problem. Beware of some cheaper rings that tend to fall apart after a year or two in use." – Wally, CO*

★★★★★ *"This is the second ring I have purchased. The first one is over 15 years old and it stayed in MA. My new one is residing in FL. I hope it lasts as long down here." – K. M. Gastonguay, FL*

Moving Water Attracts Birds—Not Mosquitoes!

The Water Wiggler™ creates continuous ripples in your bird bath. The sound of water attracts birds, plus it prevents mosquitoes from laying their eggs, helping to fight the spread of diseases like the West Nile Virus. Just place in bird bath and go: no wiring or plumbing needed. Operates silently on 2 D batteries (not included) for up to 2 months. For wintertime, use with a heated bird bath to create a "bird sauna". Ship wt 5 lb.

4WW Water Wiggler **$28.99**

★★★★★ *"Have been very impressed so far. Always concerned with mosquito issues but now I feel better about having water out for the birds. Will definitely be using wigglers in any bird baths I have!" – Ann, TN*

Fresh Water for the Birds

Solar power keeps clean drinking water thawed at temperatures down to 20ºF. Fresh water is important year–round, but tough for birds to find in the winter. Pulls apart for easy cleaning. 3in height, 8.5in diameter.

New! Root Pouch Degradable Plant Pots A "Grow Bag" Alternative That's Better For The Environment!

From recycled natural fibers mixed with recycled plastic bottles otherwise destined for landfills, comes a lightweight, breathable fabric that is crafted into plant pots you can use in your garden, yard or home! These fabric pots are wonderful for plants–roots can cool in summer, and not suffocate from overwatering. The fabric material lets water permeate so there's sufficient drainage without holes in the pot. Plus, they're washable and reusable or just compost them when done. **As low as 36 cents a pot!**

As low as 36¢ a pot!

Takes up almost no space until you use it!!

What a great look for indoor houseplants!

For 1-2 seasons outside, use these root pouches for houseplants, tomatoes, vegetables, pumpkins, herbs, and flowers on your deck or in your yard! **Bundle of 25 pouches.**

A healthier alternative for the environment!

Every year, millions of plastic pots require petroleum and fossil fuels to be created, and then eventually they are discarded to clog up our landfills. Made from 100% recycled materials, our root pouches can be used and then composted! Plus, because they're made from flexible fabric, there's no worries about pots chipping or breaking, or having to clean up pot shards like with clay pots. **Whenever and wherever you would use a plastic or clay pot, consider our Root Pouch and make a wiser choice for your local environment!**

For blister–fighting comfort, nothing beats gel technology!

An Edge for You

As the days get shorter and the nights grow colder, it's time to start thinking about getting those indoor plants ready for fall. For those houseplants that spent the summer outdoors, repot the ones with crowded root systems in sterile soil such as Wonder Soil (page 49), and don't forget to thoroughly water before bringing them inside. Our new Root Pouches (page 46) are an excellent choice for those plants that you wish to plant outside next spring. They allow for sufficient water drainage and can go right into the ground when ready to be planted. Also trim and prune plants to keep them looking neat and encourage new growth.

Don't forget to gradually expose your plants to their new environment. If your plants have been basking in the sun all summer, they will need to adjust to lower indoor lighting. Be sure to keep them near a window that receives a good amount of sunlight. You may experience some leaf loss, but this will greatly reduce overall shock to your plants.

★★★★★ *"The bench came in a long box and I dreaded having to assemble it. But once I got it out, it could not have been easier. The frame unfolded and the shelves set in, and I didn't even need a tool for anything. It was terrific, and I couldn't be happier with it. Fits in the spot I had for it perfectly." – Cindy B., NM*

★★★★★ *"My wooden potting bench finally died, and I was looking for something that folded up for winter and wasn't too heavy. This bench is perfect. The hangers are good for hand-tools and the potting soil holder is very handy. Great purchase." – aging gardener, MO*

★★★★★ *"Almost no assembly. Unfolded it and inserted the panels and bag with no tools required. I'm tall and it was a little low for my height but love it. I plan to use it soon as an outdoor beverage table for a party." – Virginia gardener, VA*

Time–release fertilizers—feed one time & forget about it!

★★★★★ *"I've used these stakes for four years now and my evergreen trees show significantly more growth in comparison to other trees in the neighborhood. I work and live in a harsh mountain environment with gravel soils and it's tough to get any tree to grow. These fertilizer stakes are essential." – Grant B., Skyland Metro District, Crested Butte, CO*

Leonard Tree Stakes: Just Use Once a Year for Time–Released Goodness

A.M. Leonard brand super tree feeding stakes contain all the essential nutrients your trees need to maintain proper health. Stakes are packaged in a big 40-pack box. 1 application usually lasts all year. Each case of 40 stakes is enough to feed about eight 3-inch diameter trees. **Case of 40 stakes.** Ship wt 12 lb.

1791T	15-7-6 for Trees and Shrubs	$34.99
1812F	8-16-16 for Fruit and Ornamental Trees	$34.99

★★★★★ *"I used the Leonard stakes for the first time this year, and I am delighted. They were easy to knock in with a 4lb hammer (and I've put in thousands over the year): much better than all the others I have used. Until now, I had not found a tree fertilizer stake specifically for fruit trees. I'll be buying many more boxes!" – John H., OH*

NutriPak 1-Year and 3-Year Fertilizer Packets

Controlled release packets make it virtually impossible to over or under fertilize your trees and shrubs. Your trees will have the right amount of fertilization, without the guesswork. No mixing, measuring, or mess, and the nutrients stay at the root, eliminating waste. For trees, use 2 packets per inch of trunk diameter. For shrubs or perennials, use 1 packet for every 12 inches of height or spread. Bury packet(s) 6-8 inches deep near the roots. Space evenly around drip line or root ball. Ship wt .5 lb.

MAGNIMOIST

Conserves Water— Much Better than Coco or Moss Liners!

With MagniMoist lining your container, water won't leave your basket until your plant is completely hydrated. Its Smart Fibers (all-natural Kenaf, a hibiscus derivative), deflect water back into the dry soil above. Only when the soil is fully saturated will MagniMoist become porous and release any excess water. Reduces fertilizer runoff, too! A U.S.–grown alternative with NO chemical binders and NO fumigants (try finding that with imported coco or moss!)

★★★★★ *"Good idea. I seem to generate many scraps for composting. This really helps keep the mess to a minimum and is so easy to carry to the composter. I wish I had bought it many years before I did." – Joanne H., Master Gardener, Tennessee*

★★★★★ *"This was a gift for my mother and she absolutely loves it. She had previously used a coffee can and things would be messy and smelly. She now has this, the filters and the bags (compostable as well — awesome) and it works well. My daughter saw it and she would like one — great idea for Christmas. I may also be getting one as well." – DJ, NY*

★★★★★ *"Beautiful Addition to the Kitchen. I was tired of going out to the compost pile EVERY DAY. Here was a product that was not only good looking (plus RED... color of all my kitchen appliances) but would hold almost a week's worth of scraps. And no smell! Love it." – Randy, IN*

Burlap—Hundreds of Uses in Your Garden

Burlap has been a traditional gardening essential for generations because it is so strong, versatile and economical. Natural burlap is tear–resistant and withstands repeated wetting and drying with minimum loss of durability. We have quality heavyweight, environment friendly and biodegradeable burlap.

401UR Burlap roll, 40inW x 100ft; Ship wt 16 lb. **$29.99**

40UR Burlap roll, 40inW x 300ft; Ship wt 46 lb. **$89.99**

A great tool to tie your trellis netting (above) to your Takiron stakes (page 55).

Soft Twist Tie Garden Wire

Very versatile with a tough, but gentle soft rubbery exterior and a strong galvanized steel core. This wire is tender enough to tie tender growth to a support, yet strong enough to hold bamboo and other supports with ease. More economical than other brands especially since it's UV–stabilized so it won't break down after 6 months in the sun. It will handle extreme temperatures, and it's reuseable. Fasten shrubs, plants, flowers, vines, climbing roses, tomatoes, and more. Soft, pliable and gentle.

Stop deer from feasting on your plants & valuable trees!

Deer and poultry fence blocks plants and crops from deer damage; resists sun damage for years!
Create a fence with stakes. (right)

You're Not the Only One Who Thinks Your Garden Looks Good Enough to Eat!

Fencing is virtually invisible when installed and yet provides considerable protection. The material is strong, lightweight, and easy to install. It is a great alternative to wire and electric fences and will last for several seasons due to UV inhibitors included in the material. The black mesh is available in two sizes to suit your application. The larger mesh, 1-3/4in x 2in, is widely used as deer fencing, 7.5 feet is the best choice. The smaller mesh, 3/4in x 1in, can be used as fencing for deer control and also smaller animal and bird control.

New Hobby Greenhouses for 2012!

With twice the heat retention of typical greenhouses, these new Nature Series Greenhouses are superbly engineered for longer overwintering and earlier seedstarting—a true advantage for your fruits, flowers and vegetables!

The Nature Greenhouse is sure to catch your eye. It features a rust-resistant, brushed aluminum frame and heavy–duty galvanized steel base that is designed to stand the test of time. Your plants will love the diffused even light from the clear, twin–wall polycarbonate panels that have the added benefit of TWICE the heat retention of typical single–layer panels. Besides excellent thermal insulation, these 4mm panels have 100% UV–protection to block out 99.9% of harmful solar radiation, and are virtually unbreakable. The sturdy, corrosion-resistant aluminum frame features strong bolt–together connections that go together quickly and easily. Heavy–duty galvanized steel base kit will provide an easy way to anchor your greenhouse to your wood or concrete foundation. An adjustable roof vent and swinging door provide excellent ventilation. A gutter and downspout are included so you can conserve water by collecting that spring rainwater! Plus it's roomy with 6.5 feet of headroom. Average setup time of 4 to 5 hours. Dimensions are 72.25in L x 73in W x (53in side H or 85in apex height). Door is 2ft wide by 6ft high.

An Edge for You

Hobby greenhouses are rapidly growing in popularity as more and more people realize all their wonderful benefits. Extend your growing season and even have a fresh salad in the winter! Avoid the ever-changing spring weather and get a head start on your seedlings. Heavy rain and harsh winds can wreak havoc on young plants, but greenhouses protect your seedlings and harden them off before being transported outside.

Plus, greenhouses give you the added benefit of knowing where your produce came from and what has gone in it. This is a real advantage for those who want to be sure that their vegetables and fruits are grown completely organic. Many grocery store vegetables have been developed and grown for their durability in shipping and storage, NOT especially for their taste or vitamin content. No longer rely on bland grocery produce from halfway across the country or further. Have access to freshly grown and deliciously ripe fruits and vegetables all year-round, with the satisfaction of knowing you've grown them yourself. Create the ideal growing environment for those sometimes hard-to-find and exotic plants, or experiment with different growing techniques. The possibilities are endless.

If you've never grown your own vegetables, fruits, herbs or flowers, our new hobby greenhouses are ideal for the beginner gardener (but the seasoned pros love them too!). They have ample room for growing a variety of plants without taking up too much space, and make a nice focal point in your backyard or garden getaway. So stop dreaming about having your own personal growing space and make it a reality!

★★★★★ *" This is an excellent bag and with over an acre of lawn to take care of, this bag has already come in very useful! I bought it for my husband after we saw a neighbor pulling one to his tree line to dump his leaves. My husband can't wait to use it for the leaves in the fall! The material is very tough (good for if there are twigs) and it is also nice and light so you can pull it around your yard. I am very pleased with the purchase." – Jen, NJ*

★★★★★ *"Yard waste/leaves are high volume material that are difficult to collect and transport. Filling small bags is tedious. These are draggable on grass and simplify things..." – Jim, VA*

"Oh my, I LOVE these tubs... I can honestly say that they have been so useful for everything in my garden. I use the largest one for making my potting soil, the smallest one for filling with the soil and putting on the bench for repotting plants. Each one serves a purpose. Won't let my husband have them, he thought the large one would be great for beer and ice for parties... nope, he can't use them. So now with these tubs and my soil knife I'm a 'happy gardener'. They are a great investment, light and easy to carry."
– Ms. Sam, CO

"Great trug! This one does not crack, yaw or hurt your hands when you carry 'stuff' in it. Sturdy yet flexible." – N. Burns, VA
